

LSA/BSA Lead Screw/Ball Screw Actuator

LYNX SERIES LINEAR ACTUATORS

Feature/Benefit

- Compact design for low profile requirements.
- Lead screw or Ball Screw drive for reliable and quiet operation.
- Modular design provides simple method for creating multi-axis solutions.
- EASY-2-Mount Motor adapter system for mounting Modusystems motor solutions.
- Linear ball recirculation system provides smooth and quiet motion combined with adequate moment load capacities.
- Single Part number solution provides easy to select pre-engineered, pre-assembled Linear motion solution.
- LSA/BSA design allows for parallel mount motor up, down, left, right and inline options.
- Let us select a Modusystems Pre-engineered motor and control solution for your next Screw Drive application.

LSA/BSA Screw Drive Options

LSA/BSA with Optical Encoder Option: Screw Drive actuators are available with multi-turn 16-bit absolute encoder with energy harvesting...no battery back-up required.

LSA/BSA as a Z-axis: The LSA can be selected with the parallel mount which allows for a more compact design and an easier pathway for cables.

LSA/BSA with Inline motor Mount: The actuator is a nice addition to any multi-axis configuration. The Z-axis shown is the LSA-Lead Screw actuator with Inline motor.
